INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
Jackson County School District No. 6
Central Point, Oregon

Report on Financial Statements

We have audited the accompanying cash basis financial statements of the governmental activities, each major fund and the fiduciary fund information of Jackson County School District No. 6 (the District), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the Table of Contents.

Management's Responsibility for the Financial Statements

The District's management is responsible for the preparation and fair presentation of these financial statements in accordance with the cash basis of accounting described in *Note 1*; this includes determining that the cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to error or fraud.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective cash basis financial position of the governmental activities, each major fund, and the fiduciary fund information of the District, as of June 30, 2021, and the respective changes in financial position - cash basis thereof for the year then ended on the basis of accounting described in *Note 1*.

Basis of Accounting

We draw attention to *Note 1* of the financial statements, which describes the basis of accounting. The financial statements are prepared on the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Matters

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. Management's discussion and analysis, the schedules of cash collected, expenditures paid and changes in fund balance - cash basis - budget and actual, other financial schedules, and the schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* are presented for purposes of additional analysis and are not a required part of the basic financial statements and are not a required part of the basic financial statements.

Management's discussion and analysis is the responsibility of management and is presented for purposes of additional analysis and is not a required part of the basic financial statements. We have applied certain limited procedures to management's discussion and analysis in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The schedules of cash collected, expenditures paid and changes in cash basis fund balance - budget and actual, other financial schedules, and the schedule of expenditures of federal awards as listed in the Table of Contents are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules of cash collected, expenditures paid and changes in cash basis fund balance - budget and actual, other financial schedules, and the schedule of expenditures of federal awards, as listed in the Table of Contents are fairly stated in all material respects in relation to the basic financial statements as a whole on the basis of accounting described in *Note 1*.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 10, 2021 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Other Reporting Required by the State of Oregon

In accordance with Oregon State Regulations, we have also issued our report dated December 10, 2021 on our consideration of the District's compliance with certain provisions of laws, regulations, contracts, and grant agreements, including the provisions of Oregon Revised Statutes (ORS) as specified in Oregon Administrative Rules 162-010-0000 through 162-010-0320 of the Minimum Standards for Audits of Oregon Municipal Corporations. The purpose of that report is to describe the scope of our testing necessary to address the required provisions of ORS, and not to provide an opinion on compliance with such provisions.

JACKSON COUNTY SCHOOL DISTRICT NO. 6
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2021

As management of Jackson County School District No. 6 (the District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities for the fiscal year ended June 30, 2021, within the limitations of the District's cash basis of accounting. We encourage readers to consider the information presented here in conjunction with the basic financial statements and the accompanying notes to those financial statements. It should also be noted that all amounts included in text below are rounded for ease of reading.

OVERVIEW OF THE FINANCIAL STATEMENTS

Using this Report

This annual report is presented in a format consistent with the presentation requirements of the Governmental Accounting Standards Board (GASB) Statement No. 34, as applicable to the District's cash basis of accounting.

Basis of Accounting

The District has elected to present its financial statements on a cash basis of accounting. This cash basis of accounting is a basis of accounting other than generally accepted accounting principles. Basis of accounting is a reference to *when* financial events are recorded, such as the timing for recognizing revenues, expenses, and their related assets and liabilities. Under the cash basis of accounting, revenues and expenses and related assets and liabilities are recorded when they result from cash transactions. As a result of using the cash basis of accounting, certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected) and certain liabilities and their related expenses (such as accounts payable and expenses for goods or services received but not yet paid, and accrued expenses and liabilities) *are not recorded* in these financial statements. Therefore, when reviewing the financial information and discussion within this report, the reader should keep in mind the limitations resulting from the use of the cash basis of accounting.

BASIC FINANCIAL STATEMENTS

This Management's Discussion and Analysis is intended to serve as an introduction to the District's basic financial statements.

The District's basic financial statements consist of three components:

1. Government-wide financial statements
2. Fund financial statements
3. Notes to the basic financial statements

This report also contains supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

Statement of Net Position. The *Statement of Net Position* includes all assets of the District and net position. Over time, increases or decreases in the District's net position may be an indicator of whether its financial health is improving or deteriorating.

JACKSON COUNTY SCHOOL DISTRICT NO. 6
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2021

BASIC FINANCIAL STATEMENTS (continued)

Statement of Activities. The *Statement of Activities* presents information showing how the net position of the District changed over the year by tracking cash collected, expenditures paid, and other transactions that increase or reduce net position. All changes in net position are reported when they result from cash transactions.

In the government-wide financial statements, the District's activities are shown in one category:

Governmental Activities. Most of the District's basic functions are shown here, such as instruction, support services, enterprise and community services, facilities acquisition and construction, and principal and interest on long-term debt. These activities are financed primarily through property taxes, Oregon's State School Fund and other intergovernmental revenues.

Fund Financial Statements

The *fund financial statements* provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The funds of the District can be categorized as governmental and fiduciary funds.

Governmental Funds. The *governmental funds* are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund Statement of Cash Basis Assets and Fund Balance and the governmental fund Statement of Cash Collected, Expenditures Paid and Changes in Cash Basis Fund Balances are reconciled to the cash basis government-wide Statements of Net Position and Activities.

The District maintains three individual governmental funds. Information is presented separately in the governmental fund Statement of Cash Basis Assets and Fund Balance and the governmental fund Statement of Cash Collected, Expenditures Paid and Changes in Cash Basis Fund Balances for the General, Special Revenue, and Debt Service, all of which are considered to be major funds.

Fiduciary Funds. The *fiduciary funds* are used to account for assets held in trust by the District for the benefit of students. The District accounts for resources received and held by the District in a fiduciary capacity for the benefit of scholarships for students. The fiduciary fund financial statements are presented separately.

The basic governmental and fiduciary fund financial statements can be found as listed in the Table of Contents of this report.

BASIC FINANCIAL STATEMENTS (continued)

Notes to the Basic Financial Statements

The *notes to the basic financial statements* provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. Information such as significant accounting policies are included in the notes which should be read in conjunction with the basic financial statements. The notes to the basic financial statements can be found as listed in the Table of Contents of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

During the current fiscal year, the District's net position decreased by \$8.5 million. This decrease can largely be attributed to the District's continuing capital outlay and LGIP interest rates decreased considerably over the last year and a half and spend down of bond proceeds decreased investments. During the 2020-21 school year, District enrollment ended in a decline after five consecutive years of strong enrollment growth. Declining enrollment is directly related to the COVID-19 pandemic and the impact of state mandates and requirements. The District projects this enrollment drop to be transitory and anticipates growth will return following the end of the pandemic. Temporary federal pandemic relief funding assisted the District with revenue shortfalls triggered by decreased enrollment and state funding. The District incurred significant technological and material costs to meet state health requirements and provide safety and security for staff and students.

Governmental Activities

The key elements of the change in the District's net position for the year ended June 30, 2021 are as follows:

- Oregon State School Fund revenue increased by almost \$1.33 million (3.7%) during the fiscal year. This increase was due to a positive adjustment from prior year State School Fund overall disbursement, a redistribution of per-student funding at the state level and an increased High Cost Disability grant payout due to the SPED program recently implemented at Scenic Middle School.
- Property tax revenue increased by \$1.22 million (8.1%), due to higher assessed property values and tax levy on 2019 general obligation bonds.

**JACKSON COUNTY SCHOOL DISTRICT NO. 6
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2021**

GOVERNMENT-WIDE FINANCIAL ANALYSIS (continued)

- “Other” revenue decreased by \$91.03 million (97.9%). This decrease is due to prior year bond proceeds reported as “other revenue” on cash basis of accounting and no bond issuance in the current year.
- Overall expenditures were exceeded by overall revenue.
- Governmental program expenses increased by \$5.57 million from the prior year; \$1.90 million decrease is related to payoff of 2013 general obligation bonds in prior year. The \$7.46 million of expenditure increases over the prior year are primarily attributed to increased District capital expenditure, increased narrative related grant spending under the Student Investment Act, and expense related to addressing student and staff needs through the pandemic. COVID-19 related spending included additional staffing, materials, purchased services, and facility improvements/additions (i.e. modular classroom at Scenic Middle School to support adequate social distancing). Negotiated salary and benefit increases with District labor groups in addition to rollup costs, such as public-employee pension system (PERS) rates, minimum wage, and general inflation also contributed to the increase in expenditure levels.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

Governmental Funds

The focus of the District's governmental funds is to provide information on relatively short-term cash flow and funding for future basic services. Such information is useful in assessing the District's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of a fiscal year.

At June 30, 2021, the District's governmental funds reported combined ending fund balance of \$83.85 million, a decrease of \$8.47 million from the prior year largely attributable to the decrease in cash received and increase in expenditures paid. Approximately \$1.49 million (1.78%) of the ending fund balance constitutes *unassigned fund balance*, which is available for spending at the District's discretion.

General Fund. The General Fund is the chief operating fund of the District. As of June 30, 2021, the unassigned fund balance was \$3.21 million. This is an increase of about \$2.42 million (75%) over the previous year. The general fund unassigned balance represents 5.06% percent of total general fund expenditures. This balance represents an acceptable financial position and slightly exceeds the District's Fund Balance Policy. A balance of this level will serve the District well during periods of growth and/or economic recession.

Special Revenue Fund. The Special Revenue Fund is used to account for Federal, State, and Local grants, as well as our food service and associated student body funds. All funds are utilized to carry out specific programs, and the ending fund balance of \$664 thousand is restricted for associated student body programs and activities, and grant related activities. There is a decrease of about \$1.11 million (62.51%) from the previous year due to spending of Measure 98 funds during fiscal year 2021 and reimbursement of spending in fiscal year 2022.

Debt Service Fund. The Debt Service Fund has a total fund balance of \$252 thousand which is restricted for the payment of general obligation bond debt service. The decrease in fund balance during the current year was about \$25 thousand or (11.23%). However, the District has consistently maintained a low fund balance relative to required debt service payments (i.e. 5%) in a continued effort to avoid unnecessary burdens on its tax base by over-levying taxes.

Capital Project Fund. The Capital Project Fund has a total fund balance of \$79.7 million which is restricted for payment of various capital projects within the District. The fund balance is a decrease of \$9.81 million from the prior year; the decrease relates to spend down of bond proceeds.

CURRENT ECONOMIC FACTORS

Traditionally, the most significant economic factor for the District is the State of Oregon's State School Fund (SSF) as appropriated by the Oregon Legislature on a biennial basis. Fiscal year 2021 was the first year of the 21-23 biennium, the District received an allocation based on 49% of the \$9.0 billion appropriated for the biennium. While this remains the District's primary funding source, state funding has been impacted significantly by the lingering pandemic. Enrollment figures have been on the forefront of concern when reviewing projected state school fund revenue as any fluctuations will be reflected in funding. Federal funding assistance (ESSER) has provided the District with the ability to support staff and students through the transition between on-site, hybrid, and comprehensive distance learning. These same federal funding dollars have also provided supplementation to bond capital projects allowing for improved health and safety additions to existing buildings. The Student Investment Account funding, derived from Oregon's Corporate Activity Tax, was made accessible during fiscal year 2021 and provided additional funding for new educational commitments. The District continues to remain mindful of how current and future funding sources are being utilized to ensure high quality education is maintained for all CPSD6 students.

REQUESTS FOR INFORMATION

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. The District School Board has established a set of guidelines for accountability. The District will responsibly administer all resources and demonstrate fiscal responsibility by aligning its program expenditures to the Strategic Plan and report of progress monthly at District 6 Board of Directors meetings. Note 1 - Summary of Significant Accounting Policies

The Reporting Entity

Jackson County School District No. 6 (the District), Central Point, Oregon, was organized under provisions of Oregon Statutes pursuant to ORS Chapter 332 for the purpose of operating elementary and secondary schools. The District is governed by a separately elected five-member Board of Education (Board) who approves the administrative officials. The daily functioning of the District is under the supervision of the Superintendent. All activities of the District have been included in the basic financial statements on a cash basis.

The District qualifies as a primary government since it has a separately elected governing body, is a legally separate entity, and is fiscally independent. There are various governmental agencies and special service districts, which provide service within the District's boundaries. However, the District is not financially accountable for any of these entities, and therefore, none of them are considered component units or included in these basic financial statements.

The more significant of the District's accounting policies are described below.

Basis of Presentation

Government-wide Financial Statements

The Statement of Net Position – Cash Basis and the Statement of Activities – Cash Basis display information about the District. These statements include the governmental financial activities of the overall District. Governmental activities are financed primarily through property taxes, intergovernmental revenues, and charges for services.

The Statement of Activities – Cash Basis presents a comparison between direct expenses and program revenues for each of its functions/programs. Direct expenses are those that are specifically associated with a function and, therefore, are clearly identifiable to that function. Eliminations have been made to minimize the double counting of internal activities in the Statement of Activities. Program revenues include: (1) charges to students or others for tuition, fees, rentals, material, supplies or services provided, (2) operating grants and contributions and (3) capital grants and contributions. Revenues that are not classified as program revenues, including property taxes and state support, are presented as general revenues.

Separate financial statements are provided for governmental funds and the fiduciary fund, even though the fiduciary fund is excluded from the government-wide financial statements.

Net Position is reported as restricted when constraints placed on net asset use are either externally restricted, imposed by creditors (such as through grantors, contributors or laws) or through constitutional provisions or enabling resolutions.

Fund Financial Statements

The fund financial statements provide information about the District's funds. Separate statements for each fund category are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column.

JACKSON COUNTY SCHOOL DISTRICT NO. 6
NOTES TO THE BASIC FINANCIAL STATEMENTS

Note 1 - Summary of Significant Accounting Policies (continued)

The District reports the following major governmental funds:

General Fund - This is the District's primary operating fund and accounts for all cash collected and expenditures paid except those required to be accounted for in another fund. The principal cash resources are property taxes and the state school support funds from the State of Oregon.

Special Revenue Fund - This fund accounts for cash collected and expenditures paid of federal grants, student activities, athletics, and food services. Principal cash resources are government grants, food sales and student fees.

Debt Service Fund - This fund provides for the payment of principal and interest on general obligation bonded debt. Principal cash resources are property taxes.

Capital Projects Fund - This fund accounts for activities related to the acquisition, construction, equipping and furnishing of facilities. Principal revenue sources are proceeds from the sale of bonds, interest earnings, and capital grant funds.

Additionally, the District reports the following fiduciary fund:

Scholarship Fund - This fund accounts for cash collected received and held by the District in a fiduciary capacity. The District receives donations for various scholarship funds, which are disbursed in accordance with the trust agreement or conditions of the various donors.

Basis of Accounting

The financial statements are presented in accordance with a cash basis of accounting, which is a basis of accounting other than generally accepted in the United States of America (GAAP) as established by the Governmental Accounting Standards Board (GASB). This basis of accounting involves the reporting of only cash and cash basis investments and the changes therein resulting from cash inflows (cash collected) and outflows (expenditures paid) reported in the period in which they occurred.

This cash basis of accounting differs from GAAP primarily because revenues (cash collected) are recognized when received in cash rather than when earned and susceptible to accrual, and expenditures of expenses (expenditures paid) are recognized when paid rather than when incurred or subject to accrual. As a result, only cash and cash basis investments and related net position or fund balances arising from cash transactions are reported in the statements of net position and balance sheets. All other economic assets, deferred outflows of resources, liabilities, and deferred inflows of resources that would be reported in GAAP basis financial statements are not reported in this cash basis presentation.

Cash and Investments at Cost

The District's cash and cash equivalents consist of cash on hand, demand deposits, an escrow account, and short-term investments with original maturities of three months or less. Short-term investments are stated at cost which approximates fair value.

The District's investments, authorized under state statute, consist of the State of Oregon Treasurer's Local Government Investment Pool (LGIP), bond investments and commercial paper. The LGIP is stated at cost which approximates fair value. Bond investments and commercial paper are reported at cost on the cash basis of accounting.

JACKSON COUNTY SCHOOL DISTRICT NO. 6
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2021

Note 1 - Summary of Significant Accounting Policies (continued)

The Oregon State Treasury administers the LGIP. It is an open-ended no-load diversified portfolio offered to any agency, political subdivision or public corporation of the State that by law is made the custodian of, or has control of, any fund. The LGIP is commingled with the State's short-term funds. In seeking to best serve local governments of Oregon, the Oregon legislature established the Oregon Short-Term Fund Board. The purpose of the Board is to advise the Oregon State Treasury in the management and investment options of the LGIP. The investments are regulated by the Oregon Short Term Fund Board and approved by the Oregon Investment Council (ORS 294.805 to 294.895).

Property Taxes

Ad valorem property taxes are levied on all taxable property as of January 1 preceding the beginning of the fiscal year. Property taxes become a lien on July 1 for personal property and real property. Property taxes are levied on July 1. Collection dates are November 15, February 15, and May 15. Discounts are allowed if the amount due is received by November 15 or February 15. Taxes unpaid and outstanding on May 16 are considered delinquent.

Uncollected property taxes are not recorded on the Statement of Net Position under the cash basis of accounting.

Inventories

The District utilizes the "purchase" method of accounting for inventories. Under this method, inventories are recorded as expenditures upon acquisition.

Capital Assets

In the government-wide financial statements, capital assets arising from cash transactions are accounted for as facilities acquisition and construction in the Statement of Activities. In the government-wide financial statements such costs would, under GAAP, be capitalized and depreciated over their useful lives.

In the fund financial statements, capital assets arising from cash transactions acquired for use in governmental fund operations are accounted for as acquisition and construction of the governmental fund upon acquisition.

Depreciation is not recorded on capital assets. Upon disposal of any capital asset any receipt from the disposal is accounted for as an other financing source in the governmental fund type.

Expenditures and other financing sources are also recognized at lease inception at the net present values of future minimum capital lease payments in the governmental funds from which lease payments will be made. Subsequent lease payments are recorded as expenditures in the appropriate governmental fund on the due date as principal and interest on debt service.

Note 1 - Summary of Significant Accounting Policies (continued)

Pension and Retirement Plans

Substantially all of the District's employees are participants in the State of Oregon Public Employees Retirement System (OPERS). Contributions to OPERS are made on a current basis as required by the plan and are charged as expenditures/expenses as funded. Certain retirees are eligible to receive a stipend that is generally payable until age 65.

Under the cash basis of accounting pension liabilities and the associated deferred outflows and inflows are not reported on the Statement of Net Position.

Post-Employment Health Care Benefits

Eligible employees who elect early retirement are entitled to payment of group medical insurance premiums. Such costs are recorded as expenses in the General Fund and funded as premiums become due.

Additionally, substantially all of the District's employees are participants in the State of Oregon Public Employees Retirement System (OPERS) – Retirement Health Insurance Account (RHIA). Contributions to OPERS RHIA are made on a current basis as required by the plan and are charged as expenses.

Under the cash basis of accounting post-employment health care assets, liabilities, and the associated deferred outflows and inflows are not reported on the Statement of Net Position.

Compensated Absences

It is the District's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. Vacation accrues during the year and up to five days may be carried over unless stated otherwise contractually. Sick leave accrues and can be carried over under certain voluntary retirement conditions included in the collective bargaining agreement. There is no liability recorded for unpaid accumulated vacation and sick leave. All unused vacation and sick leave pay are accumulated and reported in the governmental funds only if they have matured, for example, when paid as a result of employee resignation and retirements.

Long-Term Debt

In the government-wide financial statements, long-term debt is not reported as a liability in the Statement of Net Position under the cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles.

Long-term debt arising from cash basis transactions of governmental funds is not reported as liabilities in the fund financial statements. Bond premiums and discounts, as well as bond issuance costs, are recognized when incurred. The face amount of the debt issued, premiums received on debt issuances, and discounts are reported as other financing sources and uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures. The payment of principal and interest are reported as expenditures when paid.

Note 1 - Summary of Significant Accounting Policies (continued)

Net Position/Fund Balance

In the government-wide financial statements, equity is classified as net position and displayed in two components under the cash basis of accounting:

1. Restricted net position – Consists of net assets with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
2. Unrestricted net position – All other remaining net position that does not meet the definition of restricted and are available for general use of the District.

It is the District's policy to first use restricted net position prior to the use of unrestricted net position when expense is incurred for purposes for which both restricted and unrestricted net position are available.

In the fund financial statements, governmental fund equity is classified in the following categories under the cash basis of accounting:

Restricted – Includes items that are restricted by external creditors, grantors or contributors, or restricted by legal constitutional provisions.

Committed – Includes items committed by the District's Board of Director's, by formal board action.

Assigned – Includes items assigned for specific uses, authorized by the District's Superintendent.

Unassigned – This is the residual classification used for those balances not assigned to another category. This classification is also used to report any negative fund balance amounts in other governmental funds.

The District has approved the following order of spending regarding fund balance categories: Restricted resources are spent first when both restricted and unrestricted (committed, assigned or unassigned) resources are available for expenditures. When unrestricted resources are spent, the order of spending is committed (if applicable), assigned (if applicable), and lastly unassigned fund balance.

The District has established a policy to maintain a minimum of five percent of the General Fund's adopted revenues in fund balance at year end. The District believes a reserve of this level is prudent to maintain a high bond rating, to provide for unexpected emergencies, and to protect the District from the effects of fluctuations in state and federal funding. At June 30, 2021, the General Fund's fund balance was 6 percent and the District was in compliance with its policy.

Budget

A budget is prepared and legally adopted for each fund type on the cash basis of accounting. The budgetary basis of accounting is in conformity with a comprehensive basis of accounting other than GAAP for the fund types. Capital outlay expenditures, including items below the District's capitalization level, are budgeted by major function in governmental fund types. The resolution authorizing appropriations for each fund sets the level by which expenditures cannot legally exceed appropriations. The District did not exceed its appropriations for the year ended June 30, 2021.

JACKSON COUNTY SCHOOL DISTRICT NO. 6
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2021

Note 1 - Summary of Significant Accounting Policies (continued)

Appropriations are established at the major function level (instruction, support services, enterprise and community services, facilities acquisition and construction, debt service, contingency and transfers) for each fund. The detail budget document, however, is required to contain more specific, detailed information for the aforementioned expenditure categories. Unexpected additional resources may be added to the budget through the use of a supplemental budget and appropriation resolution.

Supplemental budgets less than 10% of a fund's original budget may be adopted by the Board at a regular meeting. A supplemental budget greater than 10% of a fund's original budget requires hearings before the public, publication in newspapers and approval by the Board. Original and supplemental budgets may be modified by the use of appropriation transfers within a fund between the levels of control (major function levels) with Board approval. Appropriations lapse at the end of each fiscal year.

Future GASB Pronouncements

The following GASB pronouncements have been issued but are not effective as of June 30, 2021:

GASB Statement No. 87, *Leases*. Issued June 2017 to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments and increases the usefulness of governments' financial statements. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. GASB Statement No. 87 will be effective for the District for fiscal year ending June 30, 2022.

GASB Statement No. 89, *Accounting for Interest Costs Incurred Before the End of a Construction Period*. This statement was issued June 2018 to establish accounting requirements for interest cost incurred before the end of a construction period. The objectives of the Statement are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period. GASB Statement No. 89 will be effective for the District for fiscal year ending June 30, 2022.

GASB Statement No 91, *Conduit Debt Obligations*. Issued May 2019, this statement will improve financial reporting by eliminating the existing option for issuers to report conduit debt obligations as their own liabilities, thereby ending significant diversity in practice. GASB Statement No. 91 will be effective for the District for fiscal year ending June 30, 2023.

The District is currently evaluating whether or not the above listed new GASB pronouncements will have a significant impact to the District's financial statements.

Deposits. The Governmental Accounting Standards Boards has adopted GAAP, which include standards to categorize deposits to give an indication of the level of custodial credit risk assumed by the District at June 30, 2021. If bank deposits at year end are not entirely insured or collateralized with securities held by the District or by its agent in the District's name, the District must disclose the custodial credit risk that exists. Deposits with financial institutions are comprised of bank demand deposits. For deposits in excess of federal depository insurance, Oregon Revised Statutes require depository institutions to be in compliance with ORS 295. For the fiscal year ended June 30, 2021, the carrying amounts of the District deposits in a qualifying financial institution were \$3,686,661. The bank balances at June 30, 2021 were \$6,851,884. All deposits are held in the name of the District. Of the total bank balance all but \$6,351,884 was not covered by FDIC insurance. However, the balance is covered by the State of Oregon shared liability structure for participating bank depositories in Oregon as identified by the State's Treasurer.

Effective July 1, 2008, House Bill 2901 created a shared liability structure for participating bank depositories in Oregon. Barring any exceptions, a qualifying bank depository is required to pledge collateral valued at least 10% of their quarter-end public fund deposits if they are well capitalized, 25% of the quarter-end public fund deposits if they are adequately capitalized, or 110% of the quarter-end public fund deposits if they are undercapitalized or assigned to pledge 110% by the Office of State Treasurer. In the event of a bank failure, the entire pool of collateral pledged by all qualified Oregon public bank depositories is available to repay the deposits of public funds of governmental entities.

Custodial Credit Risk. Custodial credit risk for deposits is the risk that, in the event of a bank failure, a government's deposits may not be returned to it. The District does not have a formal deposit policy for custodial credit risk.

Investments. State of Oregon statutes restrict the types of investments in which the District may invest. Authorized investments include obligations of the United States Government and its agencies, certain bonded obligations of Oregon municipalities, bank repurchase agreements, bankers' acceptances, time certificates of deposit, certain commercial paper, and the State of Oregon Treasurer's Local Government Investment Pool.

JACKSON COUNTY SCHOOL DISTRICT NO. 6
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2021

Note 2 - Equity in Pooled Cash and Investments at Cost (continued)

Jackson County School District No. 6 has invested funds in the State Treasurer's Oregon Short-term Fund Local Government Investment Pool during fiscal year 2021. Investments in the Local Government Investment Pool (LGIP) are included in the Oregon Short-Term Fund, which is an external investment pool that is not a 2a-7-like external investment pool, and is not registered with the U.S. Securities and Exchange Commission as an investment company. Fair value of the LGIP is calculated at the same value as the number of pool shares owned. The unit of account is each share held, and the value of the position would be the fair value of the pool's share price multiplied by the number of shares held. Investments in the Short-Term Fund are governed by ORS 294.135, Oregon Investment Council, and portfolio guidelines issued by the Oregon Short-Term Fund Board. Investment in the LGIP is neither insured nor guaranteed by the FDIC or any other government agency. Although the LGIP seeks to maintain the value of share investments at \$1.00 per share, it is possible to lose money by investing in the pool.

In addition, the Oregon State Treasury LGIP distributes investment income on an amortized cost basis and participants' equity in the pool is determined by the amount of participant deposits, adjusted for withdrawals and distributed income. Accordingly, the adjustment to fair value would not represent an expendable increase in the District's cash position.

Investments in the Oregon State Treasury LGIP are made under the provisions of ORS 194.180. These funds are held in the District's name and are not subject to collateralization requirements or ORS 295.015. Investments are stated at amortized cost, which approximated fair value.

Bond investments and commercial paper are reported at cost on the cash basis of accounting.

At June 30, 2021 and for the year then ended, the District was in compliance with the aforementioned State of Oregon statutes.

Credit Risk. State Statutes authorize the District to invest primarily in general obligations of the U.S. Government and its agencies, certain bonded obligations of Oregon municipalities, bank repurchase agreements, banker's acceptances, certain commercial papers, and the State Treasurer's Investment Pool, among others. The District has no formal investment policy that further restricts its investment choices.

Concentration of Credit Risk. The District is required to provide information about the concentration of credit risk associated with its investments in one issuer that represents 5 percent or more of the total investments, excluding investments in external investment pools or those issued and explicitly guaranteed by the U.S. Government. The District has no such investments.

Interest Rate Risk. The District has no formal investment policy that explicitly limits investment maturities as a means of managing its exposure to fair value loss arising from increasing interest rates.

Note 2 - Equity in Pooled Cash and Investments at Cost (continued)

Disclosures about Fair Value of Assets. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1 - Unadjusted inputs using quoted prices in active markets for identical investments.

Level 2 - Other significant observable inputs other than level 1 prices, including, but are not limited to, quoted prices for similar investments, inputs other than quoted prices that are observable for investments (such as interest rates, prepayment speeds, credit risk, etc.) or other market corroborated inputs.

Level 3 - Significant inputs based on the best information available in the circumstances, to the extent observable inputs are not available.

As the District's financial statements are presented in accordance with the cash basis of accounting, the measurement of investments is not reported at fair value.

At June 30, 2021, the District had the following investments measured at cost:

Investments:		
Local Government Investment Pool	\$	44,758,606

Tax-Exempt Installment Purchase Agreement. On October 5, 2020, the District (Purchaser) entered into a purchase agreement with U.S. Bancorp Government Leasing and Finance, Inc. (Seller) in the amount of \$542,833. The purchase agreement carries an interest rate of 1.81%. The proceeds are for certain energy saving equipment, and the purchase agreement is secured by the equipment. The agreement contains a provision that in the event of default, the Seller may exercise any remedy available at law or in equity, including declaring all installment payments due. The District made an initial principal payment on the agreement on June 25, 2021 in the amount of \$254,244. The loan matures on December 25, 2025.

At June 30, 2021 the District's commitment for the loan not included in the Statement of Net Position under the cash basis of accounting is \$288,589. Interest paid on the loan during the year ended June 30, 2021 totaled \$7,096. At June 30, 2021, the Purchase agreement proceeds of \$542,833 have not been drawn down and sit in an escrow account until the purchase is submitted and approved by the District and the Seller.

The purchase agreement maturities are as follows:

Year Ending June 30,	Principal	Interest	Total	Interest Rates
2022	\$ 62,124	\$ 4,944	\$ 67,068	1.81%
2023	63,254	3,814	67,068	1.81%

Series 2019 General Obligation Bonds. On June 27, 2019, the District issued \$53,730,00 General Obligation Bonds, Series 2019A (Tax-Exempt Current Interest Bonds) and \$28,269,023 General Obligation Bonds, Series 2019B (Tax-Exempt Deferred Interest Bonds), collectively the "Bonds". The Bonds have interest rates ranging between 3.36% and 5.00%. They were issued at a premium of \$9,601,986 and incurred issuance cost of \$477,552. The \$91,601,009 proceeds from the sale of the Bonds will be used to finance capital costs (Project), deposit for a Bond interest fund, and to pay the costs of issuance of the Bonds. Specifics on the Project include: 1) safety and security enhancements, 2) HVAC and mechanical/electrical/plumbing upgrades, 3) conversion of District building to an early learning center, 4) construction of new gyms and multipurpose rooms, and 5) remodeling and improvements to District learning spaces.

At June 30, 2021, the District's commitment for the Bonds not included in the Statement of Net Position under the cash basis of accounting is \$81,139,023. Additionally, at June 30, 2021, the 2019 Series B Bonds carried an accrued interest balance of \$1,914,503 that is not included in the Statement of Net Position under the cash basis of accounting. Interest paid on the 2019 Series A bonds come from the bond interest fund and was \$2,378,352.

2024	2,654
Total	\$ 161,579

Note 5 - Post-Employment Health Care Benefits (OPEB)

The District has two separate other post-employment benefits (OPEB) plans. The District provides a single employer defined benefit health care plan to staff and different contracts govern eligibility. Additionally, the District contributes to the State of Oregon's PERS cost-sharing multiple employer defined benefit plan.

Single-Employer Defined Benefit Health Care Plan

Plan Description. The District operates a single-employer defined benefit post-retirement health benefits program which provides explicit and implicit realized benefits.

**JACKSON COUNTY SCHOOL DISTRICT NO. 6
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2021**

Note 5 – Post-Employment Health Care Benefits (OPEB) (continued)

Single-Employer Defined Benefit Health Care Plan (continued)

For implicit medical benefits, all classes of employee are available to continue medical coverage upon retirement. Qualified spouses, domestic partners, and children may qualify for medical coverage. Medical coverage for retirees and eligible dependents continues until Medicare eligibility for each individual (or until dependent children become ineligible). There is an implicit subsidy for retired employees because the medical premium rates charged for medical coverage typically are less than actual expected retiree claims costs. This is due to medical premium rates being determined by blending both active employee and retiree experience.

Employees Covered by Benefit Terms. At June 30, 2021, the following employees were covered by the implicit benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	36
Active plan members	412
	448

For explicit medical benefits, different contracts govern different classes of employees; Administrators must have been hired prior to August 1, 2014, and have at least five years of service with the District. The Superintendent must meet PERS eligibility requirements. Classified employees and Supervisors are not eligible. Confidential employees must have been hired prior to July 1, 2016 and have at least ten years of service with the District as a Confidential employee. Licensed employees are eligible if they retired prior to August 26, 2007 with at least eight years of service as of June 30, 2007. Qualified spouses, domestic partners, and children may qualify for coverage. The benefit amount is equal to the medical/prescription drug, dental and vision premiums paid by the District to the extent covered for their active counterparts. However, the District will pay 100% of medical/prescription drug and vision premiums for Licensed retirees who retired prior to August 26, 2004 with at least ten years of service, or who have at least 13 years of service as of June 30, 2007.

The last premium payment is made in the month preceding the earlier of the participant's 65th birthday, or death. However, payments to spouses end at the earlier of their death, their age 65 (or Medicare eligibility), or the participants age 65 (or the date the participant would have been age 65 should the participant predecease the spouse). Total number of payments is not to exceed 120 months.

For explicit medical benefits, monthly District-paid caps for the 2020-2021 fiscal year are as follows: Administrators/Superintendent, Confidential employees, and Supervisors \$1,562, and Licensed employees \$1,644. Licensed caps may be slightly lower than shown here depending on plan choice.

Employees Covered by Benefit Terms. At June 30, 2021, the following employees were covered by the explicit benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	27
Active plan members	47
	74

Retirement Health Insurance Account (RHIA)

Plan Description. As a member of Oregon Public Employees Retirement System (OPERS), the District contributes to the Retirement Health Insurance Account (RHIA) for each of its eligible employees. RHIA is a cost-sharing multiple-employer OPEB plan administered by OPERS. RHIA pays a monthly contribution toward the cost of Medicare companion health insurance premiums of eligible retirees. Oregon Revised Statute (ORS) 238.420 established this trust fund. Authority to establish and amend the benefit provisions of RHIA reside with the Oregon Legislature. The plan was closed to new entrants hired on or after August 29, 2003.

OPEB Benefits. Because RHIA was created by enabling legislation (ORS 238.420), contribution requirements of the plan members and the participating employers were established and may be amended only by the Oregon Legislature. ORS require that an amount equal to \$60 dollars or the total monthly cost of Medicare companion health insurance premiums coverage, whichever is less, shall be paid from the Retirement Health Insurance Account established by the employer, and any monthly cost in excess of \$60 dollars shall be paid by the eligible retired member in the manner provided in ORS 238.410.

To be eligible to receive this monthly payment toward the premium costs, the member must: (1) have eight years or more of qualifying service in PERS at the time of retirement or receive a disability allowance as if the member had eight years or more of creditable service in PERS, (2) receive both Medicare Parts A and B coverage, and (3) enroll in a PERS-sponsored health plan. A surviving spouse or dependent of a deceased PERS retiree who was eligible to receive the subsidy is eligible to receive the subsidy if he or she (1) is receiving a retirement benefit or allowance from PERS or (2) was insured at the time the member died and the member retired before May 1, 1991.

Contributions. Participating employees are contractually required to contribute to RHIA at a rate assessed each year by OPERS. The contribution rates in effect for the fiscal year ended June 30, 2021 for the OPEB program were: Tier1/Tier 2 – 0.06%, and OPSRP general service – 0.00%. The District contributed \$6,060 for the year ended June 30, 2021.

Oregon PERS Comprehensive Annual Financial Report (CAFR).

Oregon PERS produces an independently audited CAFR which can be found at:

<http://www.oregon.gov/pers/Pages/Financials/Actuarial-Financial-Information.aspx>

Actuarial Valuation. The actuarial valuation used for RHIA is identical to the actuarial valuation details related to the OPERS Plan disclosed in *Note 6 Pension and Retirement Plans* except for the table listed below:

Actuarial assumptions:	
Retiree healthcare participation	Healthy retirees: 32%; Disabled retirees: 20%
Healthcare cost trend rate	Not applicable

The actuarial valuation details are the Actuarial Methods and Assumptions, Discount Rate, Assumed Asset Allocation, and the Investment Rate of Return.

OPEB Liabilities/Assets, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB. At June 30, 2021, the District has \$501,490 as its proportionate share of the net RHIA OPEB asset. The net RHIA OPEB asset was measured as of June 30, 2020, and the total RHIA OPEB asset used to calculate the net RHIA OPEB asset was determined by an actuarial valuation as of December 31, 2018. The District's proportion of the net RHIA OPEB asset was based on a projection of the District's long-term share of contributions to the RHIA OPEB plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2021, the District's proportion was approximately 0.24611796 percent. Under the cash basis of accounting the asset is not included on the Statement of Net Position.

Under the cash basis of accounting, for the year ended June 30, 2021, the District did not report deferred outflows of resources nor deferred inflows of resources related to RHIA OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources

Sensitivity for the District's Proportionate Share of the Net OPEB Asset to Changes in Discount Rate. The following presents the District's proportionate share of the net RHIA OPEB asset calculated using the discount rate of 7.20 percent, as well as what the District's proportionate share of the net RHIA OPEB asset would be if it were calculated using a discount rate that is 1-percentage point lower (6.20 percent) or 1-percentage point higher (8.20 percent) than the current rate:

	1% Decrease (6.20%)	Current Discount Rate (7.20%)	1 % Increase (8.20%)
Defined Benefit OPEB Liability/(Asset)	\$ (404,869)	\$ (501,490)	\$ (584,106)

The RHIA OPEB is unaffected by healthcare cost trends due to the benefit being limited to \$60 monthly payments toward Medicare companion insurance premiums.

Changes in Assumptions. The changes in assumptions used for RHIA are identified in the change in assumptions related to the OPERS Plan in *Note 6 – Pension and Retirement Plans*.

Note 6 - Pension and Retirement Plans

Tax Sheltered Annuity Plan

The District offers its employees a tax deferred annuity program established pursuant to Section 403(b) of the Internal Revenue Code (the Code), and deferred compensation program pursuant to Section 457 of the Internal Revenue Code. Contributions are made through salary reductions from participating employees up to the amounts specified in the Code. During 2021, the District provided \$197,835 in employer matching contributions for the 403(b) plan. No matching contributions are provided for the 457 plan.

Early Retirement Stipend Pension Plan

Plan Description. The District provides a single-employer defined benefit early retirement stipend benefit for certain employees until the participants are age 65, or death. Benefits and eligibility for members are established through the collective bargaining agreements and employment contracts. Different contracts govern the employees.

OPERS Plan

Plan Description. Employees are provided pensions as participants under one or more plans currently available through Oregon Public Employees Retirement System (OPERS), a cost-sharing multiple-employer defined benefit plan administered in accordance with Oregon Revised Statutes Chapter 238, Chapter 23A, and Internal Revenue Service Code Section 401(a).

There are currently two programs within OPERS, with eligibility determined by the date of employment. Those employed prior to August 29, 2003 are OPERS Program members, and benefits are provided based on whether a member qualifies for Tier One or Tier Two described below. Those employed on or after August 29, 2003 are Oregon Public Service Retirement Plan (OPSRP) Program members. OPSRP is a hybrid retirement plan with two components: 1) the Pension Program (defined benefit; established and maintained as a tax-qualified governmental defined benefit plan), and 2) the Individual Account Program (IAP) (defined contribution; established and maintained as a tax-qualified governmental defined contribution plan).

The ORS Chapter 238 Defined Benefit Plan was closed to new members hired on or after August 29, 2003. In 1995, the Oregon Legislature created a second tier of benefits for those who became OPERS Program members after 1995 but before August 29, 2003. The second tier does not have the Tier One assumed earnings rate guarantee.

OPERS Plan (continued)

Beginning January 1, 2004, PERS active Tier 1 and Tier 2 members became members of the Individual Account Program (IAP) of OPSRP. PERS members retain their existing Regular or Variable accounts, but member contributions are now deposited into the member's IAP account. Accounts are credited with earnings and losses net of administrative expenses. OPSRP is part of PERS and is administered by the Board. The PERS Board is directed to adopt any rules necessary to administer OPSRP, and such rules are to be considered part of the plan for IRS purposes.

Tier One/Tier Two Retirement Benefit (Chapter 238)

Pension Benefits. The OPERS retirement allowance is payable monthly for life. Members may select from 13 retirement benefit options that are actuarially equivalent to the base benefit. These options include survivorship benefits and lump-sum refunds. The basic benefit is based on years of service and final average salary. A percentage (1.67 percent for General Service employees) is multiplied by the number of years of service and the final average salary. Benefits may also be calculated under a formula plus annuity (for members who were contributing before August 21, 1981) or a money match computation if a greater benefit results. Monthly payments must be a minimum of \$200 per month or the member will receive a lump-sum payment of the actuarial equivalent of benefits to which he or she is entitled.

Under Senate Bill 1049, passed during 2019 legislative session, the salary included in the determination of final average salary will be limited for all members beginning in 2020.

A member is considered vested and will be eligible at minimum retirement age for a service retirement allowance if he or she has had a contribution in each of five calendar years or has reached at least 50 years of age before ceasing employment with a participating employer. General Service employees may retire after reaching age 55. Tier One General Service employee benefits are reduced if retirement occurs prior to age 58 with fewer than 30 years of service. Tier Two members are eligible for full benefits at age 60. The ORS Chapter 238 Defined Benefit Pension Plan was closed to new members hired on or after August 29, 2003.

Death Benefits. Upon the death of a non-retired member, the beneficiary receives a lump-sum refund of the member's account balance (accumulated contributions and interest). In addition, the beneficiary will receive a lump-sum payment from employer funds equal to the account balance, provided one or more of the following conditions are met:

- Member was employed by a OPERS employer at the time of death,
- Member died within 120 days after termination of OPERS-covered employment,
- Member died as a result of injury sustained while employed in an OPERS-covered job, or
- Member was on an official leave of absence from an OPERS-covered job at the time of death.

Disability Benefits. A member with 10 or more years of creditable service who becomes disabled from other than duty-connected causes may receive a non-duty disability benefit. A disability resulting from a job-incurred injury or illness qualifies a member for disability benefits regardless of the length of OPERS-covered service. Upon qualifying for either a non-duty or duty disability, service time is computed to age 58 when determining the monthly benefit.

OPERS Plan (continued)

Benefit Changes After Retirement. Members may choose to continue participation in their Variable Account after retiring and may experience annual benefit fluctuations covered by changes in the fair value of the underlying global equity investments of that account.

Under ORS 238.360, monthly benefits are adjusted annually through cost-of-living changes (COLA). The COLA is capped at 2.0%.

OPSRP Pension Program (Chapter 238A)

Pension Benefits. The ORS Chapter 238A Defined Benefit Pension Program provides benefits to members hired on or after August 29, 2003. This portion of OPSRP provides a life pension funded by employer contributions. Benefits are calculated with the following formula for members who attain normal retirement age:

General Service. 1.5 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for General Service members is age 65, or age 58 with 30 years of retirement credit.

Under Senate Bill 1049, passed during 2019 legislative session, the salary included in the determination of final average salary will be limited for all members beginning in 2020.

A member of the pension program becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, and, if the pension program is terminated, the date on which termination becomes effective.

Death Benefits. Upon the death of a non-retired member, the spouse or other person who is constitutionally required to be treated in the same manner as the spouse receives for life 50 percent of the pension that would otherwise have been paid to the deceased member. The surviving spouse or other person may elect to delay payment of the death benefit, but payment must commence no later than December 31 of the calendar year in which the member would have reached 70 ½ years.

Disability Benefits. A member who has accrued 10 or more years of retirement credits before the member becomes disabled or a member who becomes disabled due to job-related injury shall receive a disability benefit of 45 percent of the member's salary determined as of the last full month of employment before the disability occurred.

Benefit Changes After Retirement. Under ORS 238A.210, monthly benefits are adjusted annually through cost-of-living adjustment (COLA). The COLA is capped at 2.0%.

Funding Policy. OPERS funding policy provides for monthly employer contributions at actuarially determined rates. These contributions, expressed as a percentage of covered payroll, are intended to accumulate sufficient assets to pay benefits when due.

Contributions. OPERS' funding policy provides for periodic member and employer contributions at rates established by the Public Employees Retirement Board, subject to limits set in statute. The rates established for member and employer contributions were approved based on the recommendations of the System's third-party actuary.

OPERS Plan (continued)

The District's employer contributions for the year ended June 30, 2021 were \$8,111,380, excluding amounts to fund employer specific liabilities. The contribution rates in effect for the fiscal year ended June 30, 2021 for each pension program were: Tier1/Tier 2 – 32.03%, and OPSRP general service – 26.58%.

Oregon PERS Comprehensive Annual Financial Report (CAFR). OPERS prepares their financial statements in accordance with GAAP as set forth in GASB pronouncements that apply to governmental accounting for fiduciary funds and enterprise funds. The accrual basis of accounting is used for all funds. Revenues are recognized when earned. Contributions are recognized when due, pursuant to legal (or statutory) requirements. Benefits and withdrawals are recognized when they are currently due and payable in accordance with the terms of the plans. Investments are recognized at fair value, the amount that could be received to sell an asset or paid to transfer a liability in an orderly transaction in between market participants at the measurement date. OPERS produces an independently audited CAFR which can be found at:

Actuarial Valuation. The employer contribution rates effective July 1, 2019, through June 30, 2021, were set using the entry age normal actuarial cost method. Under this cost method, each active member's entry age present value of projected benefits is allocated over the member's service from their date of entry until their assumed date of exit, taking into consideration expected future compensation increases.

Note 6 - Pension and Retirement Plans (continued)

OPERS Plan (continued)

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Experience studies are performed as of December 31 of even numbered years. The methods and assumptions shown above are based on the 2018 Experience Study, which reviewed experience for the four-year period ending on December 31, 2018.

Discount Rate. The discount rate used to measure the total pension liability was 7.20 percent for the Defined Benefit Pension Plan. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Defined Benefit Pension Plan was applied to all periods of projected benefit payments to determine the total pension liability.

Assumed Asset Allocation.

Asset Class	Target Allocation
Cash	0.00%
Debt securities	20.00%
Public equity	32.50%
Private equity	17.50%
Real estate	12.50%

Investment Rate of Return. To develop an analytical basis for the selection of the long-term expected rate of return assumption, in May 2019 the OPERS Board reviewed long-term assumptions developed by both Milliman's capital market assumptions team and the Oregon Investment Council's (OIC) investment advisors. Each asset class assumption is based on a consistent set of underlying assumptions, and includes adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model.

Pension Liabilities/Assets, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2021, the District has \$67,717,308 as its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2018. The District's proportion of the net pension liability was based on the District's long-term contribution effort to the pension plan compared with the total projected long-term effort of all participating employers, actuarially determined. At June 30, 2021, the District's proportion was approximately 0.31029622 percent. Under the cash basis of accounting, the pension liability is not included in the Statement of Net Position.

OPERS Plan (continued)

Under the cash basis of accounting, for the year ended June 30, 2021, the District did not report deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 2,980,381	\$ -
Changes of assumptions	3,634,174	127,334

Contributions subsequent to the measurement date	8,111,380	-
Total	\$ 26,134,643	\$ 2,014,834

Other amounts not reported under the cash basis of accounting as deferred outflows of resources and deferred inflows of resources (prior to post-measurement date contributions) related to pensions that will not be recognized as pension expense are as follows:

Year Ended June 30,	Deferred Outflows/(Inflows) of Resources
2022	\$ 3,667,202
2023	4,953,805
2024	4,564,281

Changes in Assumptions. A summary of key changes implemented since the December 31, 2017 valuation can be found in the 2018 Experience Study for the System, which can be found at:

https://www.oregon.gov/pers/Documents/Exp_Study_2018.pdf

- Update the explicit assumptions regarding administrative expenses for Tier 1/Tier 2 and OPSRP.
- Update the assumed RHIPA cost subsidy trend rates.
- Adjust mortality assumptions to use the new "Pub-2010" base tables and a standard update to the mortality improvement scale, which is based on 60-year unisex average Social Security experience.
- Adjust retirement rates for certain member categories and service bands to more closely align with recent and expected future experience; reduce percentage of future retirees assumed to elect a partial lump sum; increase percentage of members assumed to purchase credited service at retirement.
- Increase the merit component of the salary increase assumption for two member categories based on observations of the last eight years of experience.
- Update pre-retirement termination of employment assumptions for two member categories.
- Lower assumed rates of ordinary (non-duty) disability and general service duty disability to more closely match recent experience.
- Increase the Tier 1 unused vacation cash out assumption for most member categories, reflecting recent experience.
- Adjust the Tier 1/Tier 2 unused sick leave assumption for five member categories to more closely reflect recently observed experience.
- Decrease the healthy participation assumption for the RHIA retiree healthcare program, reflecting recent experience.
- Decrease the RHIPA participation assumption for most service bands, reflecting recent experience.
- Senate Bill 1049 was signed into law in June 2019 and requires a one-time re-amortization of Tier 1/Tier 2 UAL in the calculation of actuarially determined contribution rates for the 2021-2023 biennium. No additional changes are recommended for most actuarial methods, including the actuarial cost method, amortization method, and rate collar.
- When allocating accrued liability for Tier 1/Tier 2 active members who have earned service with multiple PERS employers, base 90% of the allocation on length of service with each employer (100% for police & fire members) and base the rest on the member account balance associated with each employer. The percentage allocation for general service has increased 5% since the prior experience study. This movement illustrates the continued migration of projected future Tier 1/Tier 2 retirement benefits away from the Money Match calculation, which is based on account balances, toward the ongoing Full Formula approach, which is based on final average salary.

Defined Contribution Plan - Individual Account Program (IAP)

Pension Benefits. The IAP is an individual account-based program under the PERS tax-qualified governmental plan as defined under the ORS 238A.400. An IAP member becomes vested on the date the employee account is established or on the date the rollover account was established. If the employer makes optional employer contribution for a member, the member becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, the date the IAP is terminated, the date the active member becomes disabled, or the date the active member dies. The accounts fall under Internal Revenue Code section 401(a).

JACKSON COUNTY SCHOOL DISTRICT NO. 6
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2021

Note 6 - Pension and Retirement Plans (continued)

OPERS Plan (continued)

Upon retirement, a member of the OPSRP Individual Account Program (IAP) may receive the amounts in his or her employee account, rollover account, and vested employer account as a lump-sum payment or in equal installments over a 5, 10, 15, 20-year period or an anticipated life span option. Each distribution option has a \$200 minimum distribution limit.

Death Benefits - Upon the death of a non-retired member, the beneficiary receives in a lump sum the member's account balance, rollover account balance, and vested employer optional contribution account balance. If a retired member dies before the installment payments are completed, the beneficiary may receive the remaining installment payments or choose a lump-sum payment.

Contributions - Starting July 1, 2020, Senate Bill 1049 required member contributions to their IAP accounts to be redirected to the Defined Benefit fund. If the member earns more than \$2,500 a month, 0.75% for OPSRP members and 2.5% for Tier One and Tier Two members' salaries that were previously contributed to the member's IAP began funding the new Employee Pension Stability Accounts to help fund the cost of future pension benefits without changing those benefits, which means reduced contributions to the member's IAP account. OPERS estimates that approximately \$125 million in member contributions will be redirected in fiscal year 2020-21.

During 2021, the District, as an employee benefit, paid the employee portion of the contribution. Employer contributions for the year ended June 30, 2021 were \$1,680,717, of which \$1,375,675 was deposited into the individual members' accounts.

Note 7- Contingencies

Amounts received/receivable from grantor agencies are subject to compliance audits by grantors or their representatives. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time although the District expects such amounts, if any, to be immaterial. The District, in the regular course of business, is named as a defendant in various lawsuits.

The likely outcome of these lawsuits is not presently determinable, although the District believes it will prevail.

Note 8- Commitments

The District has obligations for project management, architecture and design, and surveying. The grand total of commitments is for \$35,134,409 with \$27,076,044 remaining to be paid on the contracts at June 30, 2021. The majority of these upgrades will be paid for with the 2019 GO Bonds.

Note 9 - Current Vulnerability Due to Certain Concentrations

The District's operations are concentrated within Jackson County. In addition, substantially all the District's revenues for continuing operations are from federal, state, and local government agencies. In the normal course of operations, the District receives grant funds from various Federal and State agencies. The grant programs are subject to audit by agents of the granting authority, the purpose of which is to ensure compliance with conditions precedent to the granting of funds. Any liability for reimbursement which may arise as the result of these audits is not believed to be material.

JACKSON COUNTY SCHOOL DISTRICT NO. 6
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2021

Note 10 - Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the District carries commercial insurance. Worker's compensation insurance is also provided through a commercial carrier. There has been no significant reduction in insurance coverage from the prior year and the District has not been required to pay any settlements in excess of insurance coverage during the past three fiscal years ending June 30, 2021.

Note 11 - Other Risks and Uncertainties

On March 13, 2020, the President of the United States declared a State of Emergency associated with the COVID-19 global pandemic. The impact of the State of Emergency and full ramifications to the economy and the District is not determinable at this time.

Note 12 - Tax Abatements

At June 30, 2021, Jackson County provides tax abatements through various State of Oregon programs. For the fiscal year ended June 30, 2021, Central Point School District's abated property taxes totaled \$445 under these programs.

Note 13 - CraterWorks LLC Agreement

On February 12, 2019 the District signed an Operating Agreement with Direct Involvement Recreation Teaching (DIRT) for CraterWorks LLC, an Oregon Limited Liability Company. The membership of CraterWorks LLC, (CraterWorks) is divided 50 percent to DIRT and 50 percent to the District. Craterworks is a collaborative work space that exists as a public/private facility, designed for making, learning, exploring and sharing. It offers a variety of industrial maker equipment including 3D printers, laser cutters, computer numerical control machines, and helps prepare those who need critical 21st century skills in the fields of science, technology, engineering and math, providing hands-on learning and critical thinking skills while fostering entrepreneurs as incubators and accelerators for business startups.

Since inception, the District has provided \$216,805 of start-up funds for CraterWorks; \$72,385 of which was provided in 2021.

The District leases property to CraterWorks commencing May 18, 2019 and ending May 18, 2022, including a renewal option of up to three consecutive terms of two years each. Base rent for the property is \$5,000 per month. On the second anniversary, and annually, thereafter, the base rent will increase 2.5 percent throughout the initial term of the lease. CraterWorks paid the District \$663 for rent during 2021.

On February 1, 2020, the District and CraterWorks entered a Memorandum of Understanding in which all or part of the first twelve months of rent is waived in exchange for professional development, facility use, and other membership services provided by CraterWorks to the District. The exchange included remaining rent balances outstanding at the time the Memorandum was signed.

During 2021, the District paid \$63,955 to DIRT for services related to consultation CraterWorks and for services to the District, respectively. Additionally, the District reimbursed CraterWorks \$3,620 for supplies and equipment purchased, and \$100,00 for District usage fees for the fiscal year ended June 30, 2021.

No separately issued financial statements are available for CraterWorks.

Note 14 - Deficit Fund Equity

The special revenue fund reported a deficit unassigned fund balance of \$1,720,757 in the Statement of Cash Basis Assets and Fund Balances. The deficit was the result of the timing of grants reimbursements. Nearly all of the District's grants are reimbursable, which requires the District to pay the expenditures prior to billing the grantor agencies and receiving reimbursement. The special revenue fund reported an overall fund balance of \$664,531.

Note 15 - Subsequent Events

Management of the District has evaluated events and transactions occurring after June 30, 2021 through the date of the financial statements were available for issuance for recognition and/or disclosure in the financial statements.

INDEPENDENT AUDITOR'S REPORT REQUIRED BY OREGON STATE REGULATIONS

To the Board of Directors
Jackson County School District No. 6
Central Point, Oregon

We have audited the basic financial statements of the Jackson County School District No. 6 (the District) as of and for the year ended June 30, 2021, and have issued our report thereon dated December 10, 2021. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-010-0000 through 162-010-0320 of the *Minimum Standards for Audits of Oregon Municipal Corporations*, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not the objective of our audit, and accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures but were not limited to the following:

- Deposit of public funds with financial institutions under ORS Chapter 295.
- Indebtedness limitations, restrictions and repayment.
- Budgets legally required under ORS Chapter 294.
- Insurance and fidelity under bonds in force or required by law.
- Programs funded from outside sources.
- Authorized investment of surplus funds (ORS Chapter 294).
- Public contracts and purchasing under ORS Chapters 279A, 279B, 279C.
- State School Distribution Factors

In connection with our testing, nothing came to our attention that caused us to believe the District was not in substantial compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administration Rules 162-010-0000 through 162-010-0320 of the *Minimum Standards for Audits of Oregon Municipal Corporations*.

OAR 162-010-0230 Internal Control

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

Restriction on Use

This report is intended solely for the information and use of the Board of Directors and management of the District and the Oregon Secretary of State and is not intended to be and should not be used by anyone other than these parties.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Board of Directors
Jackson County School District No. 6
Central Point, Oregon

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the fiduciary fund information of the Jackson County School District No. 6 (the District), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 10, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that were not identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED IN ACCORDANCE WITH THE UNIFORM GUIDANCE

To the Board of Directors
Jackson County School District No. 6
Central Point, Oregon

Report on Compliance for Each Major Federal Program

We have audited Jackson County School District No. 6's (the District) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on the District's major federal programs for the year ended June 30, 2021. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal programs for the year ended June 30, 2021.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

JACKSON COUNTY SCHOOL DISTRICT NO. 6
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEAR ENDED JUNE 30, 2021

NOTE A – BASIS OF PRESENTATION

The schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of Jackson County School District No. 6 (the District) under programs of the federal government for the year ended June 30, 2021. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, and changes in fund balance of the District.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

NOTE C – INDIRECT COST RATE

The District has elected not to use the 10% de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE D – FOOD DISTRIBUTION

Non-monetary assistance is reported in the schedule at fair market value of the commodities received and disbursed. For the year ended June 30, 2021, the District received food commodities totaling \$239,075.

NOTE E – SUBRECIPIENTS

There were no awards passed through subrecipients.

NOTE F – SCHOOLS AND ROADS – GRANTS TO COUNTIES

The District includes Schools and Roads – Grants to Counties in the schedule due to requirements of the Oregon Department of Education. These expenditures are not subject to the Uniform Guidance audit due to treatment based on guidance provided by both the Oregon Department of Education and United States Department of Agriculture.
